STONY PLAIN, ALBERTA, THURSDAY, SEPT. 20, 1928.

Whole Number 424

## Wheat Pool Meeting in Stony

The Wheat Pool meeting in Stony Saturday night was not quite as well attended as could have been wished, owing possibly to the short notice given.

The chair was taken by Mr W M Washburn, who gave a few preliminary remarks, following which the platform was taken by Mr N P Davison. Altho this gentleman has spoken in this district several times recently on the subject of the Pool, in each address he usually deals with some new aspect of the question, making his addresses very interesting to wheat-producers. Saturday's remarks were no exception to this rule, and for over an hour Mr Davison gave some very interesting information regarding the workings of the Pool. He urged the necessity there is of each present member making an effort to bring his non-Pool member into the ranks, and explained the advantage to them by so doing.

The speaker introduced to the audience Mr Peters, the manager for the local elevator of the Pool; and stated that the Pool management's instructions to each of their agents are, to not over-grade any patron's wheat, and not to under grade it; not to give him over-weight; and not to under weigh his grain.

At the close of the address, the speaker called for questions from any of those present. The questions were forthcoming, and these were answered by Mr Davison in a satisfactory manner.

## FOR SALE.

Good Team of Horses, August Albrecht, 2 miles north & 2 miles east of Baseline.

## Royal Restaurant.

Next Royal Hotel, Main Street, Stony Plain.

Meals at All Hours.  
Good Service.

First St., Stony Plain.

## Lost, 1 Boat, Fish Line, Sinker.

### Reward, 1 pair Shoelaces.

The two disciples of Izaak Walton who left, the other morning, on a fishing trip to Bad Lake had quite an experience, including a narrow escape from a watery grave for one.

All went well until they tried to land the 13th fish, the last dozen proving to be easy-going perch, but the lucky 13th was well, it hasn't been found out yet.

One of the fishers says it was a Lollapalooza, but the Fish Inspector says there ain't none in that there lake.

However, to get to the fish tale—when they baited the hook for the 13th time with a little shoe-maker's wax, and heaved the hook overboard, and in just about 60 secs. the fun began.

Fish No. 13, when he felt the nasty hook in his esophagus started for shore with the rod, line and sinker (not to mention the boat) at a gait exceeding the speed limit by about 30 m.p.h.

After going a couple furlongs, the fish suddenly changed direction without giving notice. The occupants of the boat were not prepared for this; and when the frail craft made a sharp curve in the water, Swish-swish! out goes Carol into the cool, refreshing aqua pura. The other fellow hadn't noticed the accident, and the only thing that saved the unfortunate one was the fact that, as he slid over the side, his watch-charm caught in the gunwale, thereby saving his life.

By this time the fish was making the 7th round of the lake, towing the boat; and, as the cries of the fishers had attracted the attention of a spike piloter in a grain field bordering the lake, the pitcher came over, waded out, and deftly rescued one of the fishers with his fork. On the boat's next time round he rescued the other in the same way.

Since the story leaked out, the timid Nimrods have kept away from Bad Lake.

Any information regarding a stray boat attached to a finny monster will be gratefully received. When interviewed in a hospital, Carol said the monster was twice as long as his Ford car and traveled twice as fast.

## Open Seasons for Game

Following are open seasons for game—

Ducks and Geese—Sept 15 to Dec 15th.

Hungarian Partridge—Oct 1 to Nov. 30.

Prairie Chicken and Partridge—No open season.

Deer—Nov 1 to Dec 14.

Otter, Nov. 1 to May 1.

Beaver, No Open Season.

Muskrat—Between North Saskatchewan and Tp. 91, March and April only.

Game Licenses can be had at Sun Office, where copies of the Game Act can be seen.

## The Cash Store

Will Be Closed on

Mon., Sept. 24.

## LOCAL NEWS.

Mr Zerber, jeweler, came up from Holden for the opening of the duck season.

Dr Oatway returned, Sunday, from a trip to Vancouver, B. C.

Mrs Gates is visiting this week at Jasper Park with her daughter Mrs Geo Pugh.

Mr H Ingram was up from Bruderheim over the weekend.

Mrs and Mrs F Clarke and family have returned to their home at Jasper.

John Knebel, Strathcona, was a week-end visitor in Stony.

Mr A V Carter is at present in the University hospital, receiving treatment.

Constable Zolo, of Lac Ste. Anne detachment, was a visitor in Stony on Saturday.

The Cash Store will be closed Monday next.

Mr Jos Dittrich, who owns the old Mayer farm on the Edmonton Beach road, next to John Schults' farm, has purchased a large farm close to the City, and would like to dispose of his farm near Stony Plain. Offers will be received up to the last of September from those wishing to purchase this valuable farm property. Communicate with Jos. Dittrich, 9963 Jasper avenue, Edmonton. Phone 2236.

The School Fair held in Stony Plain last week was well attended by pupils from the rural schools, quite a number of exhibits being sent in by these. The rural schools which participated were Blueberry, Comer, Glory Hills, Rosenthal, Golden Spike.

If your eyes bother you, or you suffer from headaches, why not have your eyes attended to by an expert? M M Mecklenburg, eye specialist, 10159 101st St., Edmonton.

## A Birthday Party.

A jolly surprise party was held at the home of Mr and Mrs J A Jamieson, Sept. 9, on the occasion of the birthday anniversary of Miss Olive their daughter.

The evening was pleasantly spent in playing some of the oldtime school games. Some excellent musical selections were supplied by Messrs G Barth & H Larson.

Those present were: Mr & Mrs J A Jamieson, the Misses Olive Jamieson, Helen Wibray, Annie and Mildred Liebert, Margaret Urael, Margella Larson, Ivy Powell, Messrs S & F Jamieson, Hy & W Washburn, J Evjen, M Bowser, G Barth, H Larson, C Andersen, J Urael, Philip Kulak, A & G Gradén, Jerry Powell, D Kerr.

A dainty lunch was served, after which the participants departed, wishing Miss Olive many happy returns of the day.

## Christianity's Next Task

The signing of (1), the Treaty of Versailles in which is incorporated the covenant of the League of Nations; (2), the naval treaties at Washington; and (3), the Kellogg anti-war declaration recently at Paris, were all hailed by press, pulpit and public as important milestones along the road to permanent world peace and a better understanding among the races of the earth. Special services were held in churches to mark some if not all of these events, while thousands of columns of editorial matter were printed lauding these notable efforts to put an end to racial animosities. And every word written or spoken in praise and support of these great peace movements was fully deserved.

But, notes the Literary Digest, the new programme for world-wide spiritual co-operation adopted by the International Missionary Council at its last meeting in Jerusalem may be considered as revolutionary in the ecclesiastical world as the above named three events are in the political world. All look to the promotion of peace, but the Jerusalem Conference, perhaps, probed deeper into the problems which agitate the world and array nation against nation, race against race, and, concludes the Literary Digest, while little publicity has been given to the deliberations and conclusions of the Conference held on the Mount of Olives, no bells rung, or psalms of praise offered up, yet so much was done that posterity may rank Jerusalem with Geneva, Washington and Paris in the onward march of mankind toward international amity and the ending of racial hatred.

Among the subjects discussed on the sacred mount outside the Holy City were the race problem, the rights of minorities, the protection of women and children in industry, relations between strong and weak nations, the land question, intellectual and spiritual co-operation, relations between church and state, and various other phases of world peace. Specialists on race, industry, and international relations from the minorities section of the League of Nations and the Universities of London, Harvard and Columbia, among other institutions, were present to contribute technical knowledge as these problems were attacked.

And with what result? Following lengthy and searching study of conditions as they now exist in countries all over the world, and the relation and duty of the Christian church thereto, this International Missionary Conference meeting at Jerusalem found that "the Church has not firmly and effectively set its face against race hatred, race envy, race contempt, or against racial, national and social pride, or against the lust for wealth and exploitation of the poor or weak."

It was evident right at the beginning of the Conference that the old attitude of superiority of the West over the East, regarding of Nordic civilization and the Christian religions as one and the same, was not acceptable. The idea of race superiority was not admitted for a moment, and the Conference indicated its belief that the basis of race prejudice is economic. In lands where races live side by side, participation by all in racial intermingling for social, cultural, and religious fellowship was declared to be the natural expression of Christianity, and was welcomed as a step toward world-wide understanding.

Who is there who deny that such belief and conclusions are in line with the teachings and spirit of the Founder of Christianity?

And does there not emanate from this Conference a special message for the people of Canada, and especially for the people of Western Canada? Of late there have been unfortunate revivals of ancient campaigns by certain classes of our people against other classes based solely on questions of race and creed. Most unfortunate of all is the fact that many of the leaders in these campaigns, which are a denial of Christ's whole life and teaching, are recognized leaders in the Christian church.

It is the fond hope and dearest ambition of many thousands of forward-looking, patriotic Canadians that this young Dominion reaching out in its new nationhood will become a power for good in the world; that its greatness will be found not alone in the wealth of natural resources, its far-reaching trade and commerce, its cultural attainments, but in those spiritual attainments and contributions to all mankind which, in the final analysis, are the true measures by which to estimate the greatness of any people or nation.

### Good Job For Him

He was the slowest boy on earth, and finally he was apprenticed to a naturalist. He was so slow it took him an hour to feed the canary, two to stick pins through four butterflies, and after taking all afternoon to change the goldfishes' water, he asked what else he could do.

"Well," said his master, "you might take the tortoise for a run!"

## When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has remained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

A scientist says women are going to become the ruling sex. That's the worst of these scientists! They go to sleep for so long between their discoveries, that when they awake and speak, "it's all over long ago."

During a spell of cold weather the Aberdonians were to be seen going about with their mouths open. There was a nip in the air.

tasteless alkali in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude methods when once you learn the efficiency of this. Go get a small bottle to try. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

### Tourist Trade Increasing

Figures For 1928 Will No Doubt Show Gain Over Last Year

While it was estimated that American tourists spent \$200,000,000 in Canada last year, there is no doubt but that figures for 1928 will show fresh gains, stated R. K. Odell, assistant director of the natural resources intelligence service of the department of interior, who was in Edmonton in connection with affairs of this department.

Development of the tourist trade is of extreme importance to Canada and its value is fully recognized, said Mr. Odell. In carrying on its work, the federal branch is co-operating with the provincial governments and other local bodies.

### ARE YOU RUN-DOWN?

All That Is Needed Is a Tonic  
To Build Up the Blood.

There are many people who have been semi-invalids so long that they accept their condition as a life burden. They have endured nervousness, broken sleep and a generally run-down feeling so long that they have given up hope of again enjoying good health. In most of these cases a well chosen diet, fresh air and a tonic to build up the blood would do wonders. And as a blood-building tonic no other medicine can compare with Dr. Williams' Pink Pills. There is scarcely a spot in Canada where you will not find some formerly ailing person who has again enjoyed health through the use of this medicine. The experience of Mrs. Thomas Ahearn, St. Malo, Canada, bears out these statements. She says:—"I have the greatest reason to be thankful for what Dr. Williams' Pink Pills have done for me. I was in a very weak and run-down condition. Frequently I would faint, and my legs would swell badly. It was almost impossible to do any housework. It seemed as if my blood had turned to water. In this weak and dependent condition I began taking Dr. Williams' Pink Pills. A few boxes proved that they were helping me, but I continued taking the pills until I had used a dozen boxes, by which time I found myself a completely restored woman, able to do my work without fatigue, a better appetite and a sense of cheerfulness, where before I had been despondent. For all this, thanks to the health-giving qualities of Dr. Williams' Pink Pills."

If you are feeling run-down, give Dr. Williams' Pink Pills a fair trial and new health will be yours. You can get the pills from any medicine dealer, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### Canada's Experimental Farms

The Dominion Experimental Farms system of the Department of Agriculture stretches across Canada from the Atlantic to the Pacific, and is the most comprehensive system of its kind to be found in the world.

**Asthma Is Torture.** No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Though you do know, however, from experience how immeasurable is the relief provided by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving the most agonizing attacks. If you are a sufferer do not delay a day in securing this remedy from your druggist.

### Many Occurrences Of Salt

Salt, either in natural brines or in beds of rock salt, is found in every province of Canada. Commercial production, however, is confined to Ontario, Nova Scotia, and Alberta.

**It Will Prevent Ulcerated Throat.** At the first symptoms of sore throat, which presages ulceration and inflammation, take a spoonful of Dr. Thomas' Electric Oil. Add a little sugar to it to make it palatable. It will soothe the irritation and prevent the ulceration and swelling that are so painful. Those who were periodically subject to quinsy have thus made themselves immune to attack.

### Italy Plans Dirigible

The Italian government has decided to abolish the dirigible balloon as a weapon of warfare or a means of commercial transportation. It was assumed the decision was due directly to the disaster that befell the dirigible Italia on its recent North Pole flight.

### Veterinaries use Minard's Liniment.

Manager: "But, look here, these aren't testimonials!"

Office Boy (applying for post): "No, sir, but I thought they would help. They're copies of the death certificates of my four grandpapas."

Minard's Liniment cleanses cuts, etc.

## Here's How

## You Can Always Keep Your Farm Buildings in Good Repair

### GYPROC Advantages for Farm Buildings

Easy to use.  
Low cost.  
Workable as lumber.  
Cement, wire, and  
crack, shrink or burn.  
Battens, any decoration.  
Resists heat and cold.  
Vermin proof.  
Eliminates repairs.  
Protects your stock.  
Ideal for lining garages, poultry houses, barns, grain bins and other farm buildings.  
Especially suitable for converting attics and basements into extra rooms.

THOUSANDS of farmers have learned how easy and economical it is to keep farms up-to-date with Gyproc. Whenever repairs or alterations are required—whenever new buildings are needed—they rely on this famous fireproof wallboard.

For fast, economical, fireproof construction there is nothing to equal Gyproc. It cannot warp, crack, shrink, bulge or burn. Its million-celled rock insulation protects stock from cold, heat and vermin. Saves time, saves labor, saves fuel—the easiest to erect and most satisfactory Wallboard you can buy.

### WRITE FOR FREE BOOK

### Chicago Churches

Expenditure Of Twenty-Five Million Dollars On New Church Buildings Last Year

The Frenchman who remarked that the English must be an extraordinary dirty race, as they were always bathing, would probably say that Chicago's expenditure of \$25,000,000 on new church buildings last year proved it a wicked city. This interpretation of its outlay on houses of worship would be as illogical as it would be ungenerous. A modern city does not have to be more than ordinarily ungodly to realize that the church stands for the highest ideals in home and State; that it is a rock upon which doubt, selfishness and greed eventually wear themselves out. William Hale Thompson and "Scarface" Al Capone to the contrary notwithstanding, Chicago probably stands in no greater need of churches than do some other American cities. The realization of its need in this respect is to Chicago's credit; and it, after having built the churches, Chicagoans find they will reap rich dividends in the finer things of life.—Detroit Free Press.

### Prosperity In Central B.C.

D. D. Munro, provincial government land settlement agent, Smithers, reports that crop prospects for Central British Columbia this year are very good. He states that since the erection and operation of the grain elevator at Prince Rupert, a number of farmers are going in for grain growing with splendid results. He also says that the increase in mining is having a very beneficial effect, and he is enthusiastic with respect to the future prospects of that territory.

Inside the pedestal on which Cleopatra's Needle stands are several jars containing British colza, a railway guide, a number of children's toys, copies of newspapers and a map of London.

### Free Grant Homesteads

Unusual Activity Seen In Taking Up Land In Western Canada This Year

Official records show that during the first seven months of this year, a total of 6,734 free grant homesteads and 391 soldier grants were taken up in Manitoba, Saskatchewan, Alberta and British Columbia, representing 1,140,000 acres. The record for the corresponding period of 1927 was 3,675 homesteads and 238 soldier grants, representing 614,000 acres. In the seven months this year soldier grants only numbered 391 and last year 288. The entries in the respective provinces this year were as follows: Manitoba, 329; Saskatchewan, 2,159; Alberta, 4,106; British Columbia, 454.

It is usually safe to say that when a child is pale, picky, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, correct these faults of the digestion and serve to restore the organs to healthy action.

Northeast of Arisaig, in the country ever associated with the landing and departure of Prince Charlie, lies Loch Morar. It is the deepest lake in the British Isles.

The oftener you look back, the faster you don't go.

### Foot Comfort

For aching feet use Minard's. Soothes and relieves pain.

## They Liked Canada

Youths From Britain Are Returning Home With a New Vision Of This Dominion

Coming here a month ago for a tour of Canada as "ambassadors of empire," fifty representatives of the youth of the British Isles, 25 boys and 25 girls, between the ages of 14 and 21, are returning to their homes in England, Ireland, Scotland and Wales, as real ambassadors for Canada.

Their captivation by the charms and challenges of the Dominion, and their intention to boost Canada on their return home, were declared at a luncheon tendered the party by the city of Montreal.

"We," said Lady Marjorie Dalrymple, in charge of the 25 girls in the party, "will tell of the wonders we have seen and the practical splendor of Canada, the warmth of Canada's welcome and hospitality, and the warmth of feeling toward us of the Old Land. We go back full of great memories and high ambitions. We can all do our bit. I believe that if people come out here with open minds and a willingness to work, they will be helped."

Kenneth Lindsay, M.A., Oxon, in charge of the 25 boys of the party, said: "We are going back to set up fifty individual selling agencies for Canada. We go back with hopes high and confirmed optimism. We go back with a new vision of Canada."

"We recognize this is a land of milk and honey—but not for those who are not prepared to work," went on Mr. Lascel. "We are going home to preach the gospel that you want here workers and not shirkers."

"We are not concerned about the peaceful penetration of the United States in this country. We find on all sides a very great and sincere love for the empire and we feel this scheme has played a contributory part in that unity of empire which is one of the most potent influences in the preservation of the peace of the world."

"We came to Canada seeking the soul of Canada. We have seen something of the real Canada. We have visited typical Canadian homesteads; we saw the wheat fields, even have had a small part in gathering the harvest; we have visited typical city homes; we have seen your gold and other mines at work; we have climbed your mountains; we have sailed your lakes; we have seen something of your vast industries and we have seen a great deal of your vast natural resources. And we go back home with a real knowledge of the progress of Canada. We feel that the thing of importance is your future."

Mayor Houde suggested Canada adopt a similar scheme, sending a group of Canadian youths to the British Isles on a return visit to this one. The idea was praised by Mr. Lascel, who promised full co-operation from the other side if the idea was put into practice.

**Chief Of Tobacco Division**  
Nels T. Nelson, B.S.A., has been appointed chief of the Tobacco Division of the Canadian Government. Dr. Nelson has been tobacco expert for the past four years at Windsor, Connecticut, U.S.A., and previously had several years' experience in tobacco culture. The rapid increase in tobacco production in Canada, which has increased from 13,000,000 pounds in 1921, to approximately 46,000,000 pounds in 1927, is causing the Canadian Government to pay special attention to this growing industry.

Woman may be a conundrum, but she always has a ready answer.

"Call me at six in the morning."  
"There will be no need to call you."  
"How do you know that? What will wake me up?"  
"Just go to bed and you will see."  
—Flegende Blätter, Munich.

W. N. U. 1761

## NEW HOME OF THE CALGARY ALBERTAN

When the new building now under construction for The Albertan Publishing Company, in Calgary, is completed, it will be the home of one of the most modern newspaper plants in Western Canada. Occupying a ground space of 75 by 120 feet, the building will cost when completed, apart from equipment, approximately

Linotype typesetting machines. The business and private offices will be located on the ground floor at the front of the building. The pressroom will be located also on the ground floor at the rear, and plate glass windows will provide an unobstructed

sue of which will be published on Nov. 10. At the rear of the top floor will be located the commercial printing department. A large community room is also to be located on the third floor, and this will be used as a general conference or board room. Adjoining the community room will be a completely equipped radio stu-

G. F. GEMEROY, General Manager.

by \$200,000. Standing three storeys in height, the exterior walls will be of Alberta tapestry brick, with Tyndall stone dressing, and the building will be occupied exclusively by the various departments of The Albertan Publishing Co.

The mechanical equipment is to be perfect, from the great Hoe and Goss presses, to the smallest unit of the battery of eighteen Intertype and

G. M. BELL, President of The Albertan Publishing Co., Calgary.

view for the public to see the giant presses in operation. The second floor will be given over to the various editorial departments, and the newspaper composing and stereotyping rooms. At the front of the third floor will be the editorial offices of the Western Farm Magazine, the first is-

M. WALKER, Superintendent.

dio. This will include a radio room, a reception room and a broadcasting chamber. The new building will be served by two elevators, freight and passenger.

"Carefully planned in all details, modernity has been the key-note throughout, and the Albertan building will conform in every respect to the very latest ideas in newspaper plant construction."

### Splendid Feed For Stock

Soybean Makes Heavy Hay Like Clover But Needs Thorough Curing

The soybean, a crop well known in some parts of the United States and commencing to get a foothold in Canada, makes a very good class of hay. Officers of the Experimental Farms Division of the Department of Agriculture have written a pamphlet on Soybeans in Canada, that gives one a very good idea of the usefulness of the crop. The soybean, like clover, makes a heavy hay that is relished by live stock. It is ready for harvesting any time after the pods have developed until the leaves begin to turn yellow. G. P. McRostie, the head of the Forage Crops Division, says that the best time to cut is when the pods are well filled, for at this stage the highest yield and best quality is obtained. After being cut with the ordinary hay mower, it is left in the swath for about a day or until the leaves are thoroughly wilted. The practice in this respect is about the same as with clover. When wilted it is raked into windrows where it is allowed to cure. After two or three days, if the weather has been favorable, it should be put into small cocks for further curing and drying. Thorough curing is needed to prevent spoiling in the mow. The hauling and handling requires to be carefully done in order to preserve the leaves, which are the most valuable part of the feed, as much as possible.

A young woman was being cross-examined in court.

"How old are you?" interposed the magistrate.

She hesitated.

"Don't hesitate," said the other: "every second shakes it worse."

### Following Regular Course

Nothing the Matter With Gulf Stream Say Old Mariners

Two mariners from across the Atlantic have brought word to New York that, contrary to report, the gulf stream is following its regular course.

Some trans-Atlantic skippers had expressed the belief that the warming-gulf stream was shifting away from the British Isles, but this was disputed by Captain S. G. S. McNeill, of the Cunarder "Mauretania," and Captain Johansen, of the Columbus of the North German Lloyd.

"There has been no change in the course of the gulf stream," said Captain McNeill. "It has been running rather stronger this summer, and this has caused the counter current westward from the northern edge to run a little faster."

"There are a number of people who have been crossing this ocean for twenty to thirty years and don't appear to be aware of the existence of the counter current. There is nothing wrong with the gulf stream," Captain Johansen said he has noted no change in the course of the stream. He suggested that for accurate scientific purposes slow moving ships be sent cross-iron over the range of the stream to establish authoritatively just what it is doing. Fast-moving ships are impracticable.

The average production of honey per hive in Cyril T. Duncafe's apiary at Minotown, Swan River Valley, Manitoba, during the past four seasons was 125 pounds.

Geologists think England is tilting. They say that while the north and west are slowly rising, the south and east are sinking.

### The Control Of Pests

Measures To Be Taken To Overcome Pests In Field and Garden

The greatest menace to agriculture is the large number of insect pests, which with very little encouragement spread at an alarming rate. These are particularly prevalent and persistent in gardens, and unless control measures are instituted—soon make crops of vegetables and flowers a total loss.

Injurious insects may be divided, roughly into two classes, by the nature of their mouth parts, "biting" insects which bite and chew their food, such as cut worms, leaf eating beetles, etc., and "sucking" insects which suck up their food by means of their beaks, such as aphids, the tree bugs, the scale insects, etc. For the first a stomach poison is necessary and for the second a contact insecticide.

"Insects of the Flower Garden and Their Control," is a new bulletin of the Department of Agriculture, No. 29, new series. This may be had on application to the Publications Branch, Department of Agriculture, Ottawa, and it will be found a very full treatise on the cultural practices for the control of insects, also the formulas for insecticides and the way to apply them. Arthur Gibson, Dominion Entomologist, has covered the control of destructive insects in a very full and complete manner in this bulletin, and the work is fully illustrated.

King Alfonso of Spain makes a hobby of medicine and is greatly interested in surgical operations.

"What are the seven ages of woman?"

"Her real age and six guesses."

## The Way of Peace

Removal Of Fear Of War Greatest Factor In Development Of North American Countries

Remuneration of war is symbolized by the Canadian-American border, says the Washington Post, in an editorial commenting on Premier Mackenzie King's speech, at Geneva.

"All the arguments for peace find support, all the objections to the world peace treaty are reduced to unconvincing postulate, by the relations which have existed between the two countries for more than a hundred years. The old Rush-Bagot treaty has amply sufficed for the ends of amity. The international joint commission is the agency for the settlement of the ends at issue, and it always finds support for its judgments."

"The Post comments that the 'most quickening thing' said by the Canadian Premier, at Geneva, was his conclusion that the removal of the fear of war had been the greatest factor in the development and prosperity of the North American countries, and adds: 'The growing world opposition to war cannot now lose sight of the advantage enjoyed by the neighbor countries of North America through the removal of fear of war. Canadian-American peace has been maintained in the face of wars that have time and again altered the face of Europe. This is an old story to Americans and Canadians, but it is a strange sound to many of the representatives of the war-weary states. The psychology of peace, which has been the basis of permanent good-will between Canada and the United States and which has conducted to bringing prosperity, can be obtained by all nations, if they will make a habit of renouncing war. This will remove the fear of war, and with fear eliminated, armaments can be reduced and abolished.'

## FASHIONS

A Modish Frock

Particularly graceful is this attractive frock, having a flared section at each side of the skirt. The front of the bodice opens in a deep V over a vestee, and the long dart-fitted sleeves have wide cuffs placed a short distance above the lower edge. No. 1439 is for blue and white, and is in sizes 16, 18 years, 36, 38, 40, 42 and 44 inches bust. Size 38 requires 4 1/2 yards 39-inch, or 2 1/2 yards 54-inch material without nap. Width at lower edge about 78 inches. Price 25 cents the pattern.

## WHITE STAR LINE CANADIAN SERVICE

### Tourists Should Be Informed

As the tourist reaches our country he should be given a card containing full particulars in regard to highway regulations, the purchase and consumption of liquor and in reference to all other matters with which he should be familiar, while he is a guest of this province. It is a hardship to punish a visitor for transgressing a law in regard to which he has not been informed, a difficulty which would be completely overcome by the introduction of some such plan as this.

### A WONDERFUL TRIBUTE

Baby's Own Tablets Declared To Be Worth Their Weight In Gold

A mother has only to use Baby's Own Tablets once to be convinced that nothing else can equal them in banishing the ills of her little ones. Once used, always used to the same result: there are small children in the home—that is the tribute thousands of mothers pay the Tablets.

Among the many, many mothers who are anxious to tell of their experience with Baby's Own Tablets is Mrs. Griffith, of East Hamilton, Ont., who writes:—"Shortly after coming to Canada I began giving the Tablets to my baby boy who was then six weeks old. The result was so pleasing that since that time I have always kept the Tablets in the house. I have two children now and both of them are the picture of health. Baby's Own Tablets are the only medicine they have ever had and I really believe the Tablets to be worth their weight in gold."

Baby's Own Tablets are free from all injurious drugs and can be given to the youngest babe with absolute safety. They are sold by medicine dealers or by mail at 25 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

Giant hunting grasshoppers nearly five inches long, that prey on small animals such as mice and the young of ground-nesting birds, are found in the Congo.

### HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fennar, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but it was no good. One day the druggist asked me if I had ever tried

DR. FOWLER'S  
EXT. OF  
WILD  
STRAWBERRY

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since 1925."

### Farmers' Marketing Tour

Canadian National Railway Tour To Great Britain and Denmark, 1928

(Continued.)

Historically speaking the Glasgow Town Hall is a comparatively recent building in the Venetian Renaissance style, and the hall in which we were entertained is lofty, airy and in its sheer spaciousness magnificent. Three beautiful wall paintings command attention, one depicting the legend of King Roderick and St. Mungo, the representation of which is still part of the City's coat of arms; a second a Glasgow scene of the Middle Ages, and it was interesting to note that in this scene was portrayed a Clydesdale, although the period covered is about 1500. The third in the Luntania on the stocks of the Clyde before her completion. For all its comparative modernity, the banqueting hall can boast a history. Queen Victoria, King Edward, Queen Alexandra, King George, Queen Mary and the Prince of Wales have dined in it. Every Prime Minister of Great Britain since 1859 has been the guest of the City there; and in July, 1914, three weeks before the war, the German hurongers dined there after visiting the shipping centres of England and Scotland. Only two toasts were honored, "The Kaiser" and "The Kaiser" and the German and British National Anthems were sung. Soon after the hurongers were hurrying home, their trip cut short by the outbreak of the Great War.

Sir David Mason and the Corporation entertained us in characteristic Scottish style. The haggis was piped in to the tune of "Happy We've Been" and the haggis was then cut by the Police Band, at the end of which ceremony the chairman proffered Pipe Major the time-honored refreshment, acknowledgement by the Pipe Major with the traditional response, "Thank and a health to you" spoken in Gaelic.

A little secret history attaches to the fine new leopard skin which was worn by the Pipe Major for the first time and in our honor. It appeared that circumstances had compelled the Corporation to wield the economy axe, and in doing so, they had decided to cut out one pair of trousers from the annual outfit of uniformed city officers. It was proposed to spend twenty guineas on a leopard skin for the Pipe Major, but this would hardly have done in view of the incident of the trousers. Happily, however, the difficulty was overcome by a public-spirited citizen who presented the City with a properly mounted skin.

There were two musical programs, Gaelic airs, marches, strathspeys and reels by the pipe band and selections by the City of Glasgow Police Orchestra who honored us by playing Canadian songs and dances. Glasgow indeed entertained us royally.

We spent our afternoon watching a football match as guests of the Corporation and thoroughly enjoyed the experience. The European part of our official programme was now ended, but there was one unscheduled event for which the party was responsible. We had almost completed a wonderful tour. We had seen more than thirty-two days than perhaps any party of the same size had ever seen. Doors, for which money was no key, had been thrown open to us. Privileges jealously guarded and keenly sought had been freely accorded to the Canadian Farmers' Party, and the hearts of both high and low had been opened as well as doors. Throughout we had been cared for with something more than efficiency by those who had charge of us, the officials of the Canadian National and of the Globe Travel Bureau had become our friends. We would not part without returning thanks and expressing our esteem. So we hailed Mr. Weir, the organizer of the tour in Europe, Mr. Groff, organizer in Canada, and Mr. Strachan, agricultural representative for the Canadian National Railway in Winnipeg, before a mock tribunal, apparently to try them for their sins, but in reality to present the first two with a silver salver suitably inscribed, and Mr. Strachan with a case of pipes. Mr. W. A. Wilson, of Canada House, who had been guide, philosopher and friend on so many occasions; Mr. John L. Harvey, Mr. Turnham, and Mr. Whitby, of the Globe Travel Bureau, and the four trusty drivers, who had driven us and our luggage so many hundreds of miles in perfect safety were likewise brought before the "judge" (Mr. Arkelly). Mr. Wilson, to receive a letter of thanks from the party, Mr. Harvey an illuminated testimonial, his colleagues each a letter of appreciation supplemented by a money gift.

When we had responded the "judge" himself was placed in the dock and was presented with a letter and a gold watch engraved with an inscription: the party's tribute to the manner in which he had carried out the duties of the position as leader to which we had elected him. Mr. Arkelly had responded to the speeches of great men on great occasions, but never had he found his task of replying so difficult as he did this night so overcome was he with the surprise we had secretly prepared.

These were not all we thanked. There was Mr. Dan Johnson, European Colonization Manager for the Canadian National Railway; "Brownie" (Mr. E. W. Brown), Mr.

Johnson's assistant whose singing we shall never forget, especially the impromptu "How Do You Do" song which pilloried members of our party; Mr. Frank England, Mr. Weir's assistant, who, in the interests of Canada, saw that we were interviewed and photographed everywhere we went; and Miss Roberts, Mr. Weir's secretary, who was always ready to type our letters however pressed with urgent work.

Another song from "Brownie," then "Audie Lang Syne," the last verse sung with arms crossed and hands clasped concluded a happy evening.

Sunday found us perhaps a little glum, for quite a number of our party was remaining to visit friends or relations. We had round that Canadians are Canadians wherever they are, whatever Province they hail from; and it was with sincere regret that we parted at Greenock from those who stayed behind. At length we were off, the shores of Britain were lost in the oncoming night. Long live the Homeland: now for HOME!

### FINIS.

Worms sap the strength and undermine the vitality of children. Strengthen them by using Mother Graves' Worm Expeller to drive out the parasites.

### Forest Fire Costs

Canada's bill for forest fire losses amounts to more than \$1.50 a week for every man, woman, and child of the population. Federal and Provincial Governments, are putting forth efforts to reduce and eventually wipe out this heavy loss.

### Minar's Liniment for Every Pain.

A motorist who has driven half-way around the world reports that tigers and elephants led before him. It is wonderful how quickly wild beasts have acquired the pedestrian sense.

### THE CHRISTIAN BASIS OF TOTAL ABSTINENCE

Golden Text: "Let no man seek his own, but each his neighbor's good." 1 Corinthians 10:24.

Lesson: 1 Corinthians 8:1-13.

Devotional Reading: Romans 14:13-21.

### Explanations and Comments

Paul had been asked whether or not one might eat meat which had first been offered to idols. The letter probably suggested that, as an idol was not a real god, it did not matter if the food had been offered to it. The writers doubtless wished to be known as "the party which stood for liberty of conscience, and probably for the Pauline axiom, 'All things are lawful to me.'"

Moffatt's version of Paul's words makes them so clear that explanations are unnecessary:

With regard to food that has been offered to idols. Here, of course, "we all possess knowledge." Knowledge puts up, love builds up. Whoever imagines he has attained to some degree of knowledge, does not possess the true knowledge yet; but if anyone loves God, he is known of Him. Well, I live, never!

then, with regard to food that has been offered to idols, I am quite aware that "there is no such thing as an idol in the world," and that "there is only the one God." (So-called gods there may be, in heaven or on earth—as indeed there are plenty of them, both gods and "lords"—but for us there is one God, the Father, from whom all comes, and for whom we exist.) But remember, it is not everyone who has this "knowledge." Some who have hitherto been accustomed to idols eat the food, as food which has been really offered to an idol, and so their weaker conscience is contaminated. Now more food will not bring us any nearer to God; if we abstain we do not lose anything, and if we eat we do not gain anything. But see that the exercise of your right does not prove any stumbling block to the weak. Suppose anyone sees you, a person of enlightened mind, reclining at meat inside an idol's temple; will that really "fortify his weak conscience?" Will it not embolden him to violate his scruples of conscience by eating food that has been offered to idols? He is ruined, this weak man, ruined by your "enlightened mind," this brother for whose sake Christ died! By sinning against the brotherhood in this way and wounding their weaker conscience, you are sinning against Christ. Therefore, if food is any hindrance to my brother's welfare, sooner than injure him I will never eat flesh as long as I live, never!

## Your Hands Need Cuticura Soap

## MOST OF BRITISH HARVESTERS ARE MAKING GOOD

Winnipeg—"We are just finding out the slackers, that's all, and I am quite confident that the majority of the men are making good," declared Hon. Robert Forke, Minister of Immigration, following a conference regarding British harvesters, which he had with Thomas Colley.

About six hundred have been sent back to England, Mr. Forke continued, and possibly two hundred more will go back as having failed to make good; but that left something like eight thousand British harvesters in the wheat fields, who were not being heard from because they were too busy working.

He had talked with the physician who had examined 200 of the men sent on their way home and only one out of the lot had been really physically unfit, and he was subject to epileptic fits. The others could have worked had they not lacked the will.

"There is plenty of work," said Mr. Forke, mentioning that 1,500 men had been wanted at Regina this morning. He had himself come back all the way from Ottawa to see that the five British harvesters on his own farm got a good start. He thought the farmers who cut the wages of British harvesters because of inexperience, were a little shabby," at the same time he agreed that men new to the work were bound to be inferior to experienced hands.

The minister warmly praised the work of Mr. Gellie in handling affairs at the immigration sheds under most trying circumstances. "No one could have done it better," he said. All physically unfit British harvesters will be returned to the Old Country, Mr. Forke asserted, regardless of their desire about remaining here.

A non-political commission for the supervising of British immigration is not held to be a probability by the Minister of Immigration. "I do not foresee any definite changes which would relegate the immigration question to a non-political field," he said. "It is likely that it will continue to be in the hands of whatever government happens to be in power."

## Nova Scotia Nominations

Liberals Will Have Candidates To Contest Every Seat

Halifax, N.S.—With 24 candidates already selected, and 11 conventions on the book, the task of choosing representatives of the various parties to contest in the provincial election is more than half completed.

Among the four Conservatives re-nominated was Col. Gordon Harrington, Cape Breton Centre, minister of mines, the four members of the Rhodes cabinet to re-offer. Six opposition candidates were chosen.

It was definitely stated by Liberal organizers that no seats will be conceded the government by acclamation.

## Refuse Trade With Russia

Labor Congress Rejects Resolution To Resume Relations

Toronto, Ont.—Following a heated debate the Trades and Labor Congress of Canada rejected a resolution favoring the resumption of trade relations with Russia. The sponsors of the resolution contended that Russia was the only country in the world where the working classes were in control, and that there was a ready market in Russia for products of Canadian industry.

Must Carry Parachutes

Copenhagen.—Due to the frequency of accidents this year, all Danish military and naval aeroplanes will be equipped with Irving parachutes from Oct. 1. Military orders decree that no aviators should fly without a parachute attachment.

New British High Commissioner

London, Eng.—Sir William Clark, the new British high commissioner to Canada, accompanied by Lady Clark and their two daughters, are sailing for Canada on the Empress of Scotland.

W. N. U. 1751

## Old Age Pensions Paid

Amount In B.C. Totalling \$441,222 Up To June Last

Ottawa, Ont.—Old age pensions totalling \$441,222 had been paid up to June last, to 3,150 persons in British Columbia who had taken advantage of the scheme, according to statistics just compiled by the department of labor. Of this amount the federal government paid one-half.

British Columbia's pensioners comprised 22 per cent. of the population of that province over 70 years of age. The average monthly pension was \$17.47, the pensioners being divided as 1,871 males and 1,279 females.

Property owned by these pensioners, is valued at \$1,520,782. Of the pensioners in British Columbia, 271 were previous residents of Ontario, 257 of Alberta, 179 of Manitoba, 175 of Saskatchewan, 75 of Nova Scotia, 37 of Quebec, 18 of the Yukon, and 10 of Prince Edward Island. When any of those provinces come into the scheme a proportion paid to the pensioners in British Columbia will be charged to the respective provinces. Saskatchewan has been paying pensioners since June and expects to have 1,000 on its payrolls in September. Manitoba and the Yukon will be paying pensions soon.

## New Plane Tested

Demonstration At Los Angeles Proves Automatic Landing Feasible

Los Angeles, Cal.—A tiny plane constructed on a new vertical principle, made successful test flights here, demonstrating, observers said, that an aircraft can make an automatic landing with both hands off.

Merle F. Kelley, who piloted the plane, was said to have taken the craft from the ground on 8½ seconds, soared sharply upward, cruised at 100 miles an hour and then landed with both hands off.

The new principle was described by A. A. Merrill, inventor, as tilting the wings, which are a single unit, in relation to the speed vehicle in the cockpit.

The plane has a short fuselage and very little tail. In its construction the inventor was assisted by Dr. Clark Millikan, son of Dr. R. A. Millikan, Dr. Harry Bateman and Dr. A. L. Klein, all of the California Institute of Technology.

## Submarine Rescue Device

U.S. Navy Tests New Apparatus For Saving Ship Crews

Aboard Submarine Salvage Falcon, Off Solomon Islands, M.D.—Successful deep sea tests with the "thing," the navy's new breathing device, intended to enable men trapped in sunken submarines to reach the surface safely, have been made and if future tests prove as encouraging, all naval subs will be equipped with them.

Three naval divers descended in a diving bell to a depth of 155 feet and arose slowly, breathing high atmospheric oxygen through a mouthpiece from a rubber bag resting against their chests. They reported no discomfort. It is said to be the most practical device ever invented for the purpose.

## Will Publish Naval Accord

No Secret Clauses In Agreement Says Briand

Geneva.—The much-discussed Franco-British naval accord is to be made public by France through the League of Nations committee of disarmament.

Foreign Minister Briand of France announced this decision after a speech before the League Assembly in defence of the agreement. He said the understanding would be introduced merely in passing, as an example of efforts being made to hasten disarmament.

In his speech he asserted that there were no secret clauses in the agreement.

Natives Should Avoid War

Geneva.—An earnest appeal that native races should forever be kept outside the range of modern warfare, was made by Hon. J. S. Smith, South Africa's high commissioner in London and representative of the League of Nations, in addressing the League assembly.

## Mentioned For Important Post

G. W. Stephens, of Montreal, who has been mentioned as a possible selection for the post of Canadian minister to Tokyo.

## To Aid Non-Agrarians

Reduced Fares Arranged For Families Of Settlers Not Employed On Land

Ottawa.—Details of the extension of the assisted passage scheme to the wives and children of British settlers not employed on the land in Canada have been announced at the department of immigration. Assisted passages were formerly only given families of those who settled on the land.

A reduced steamship fare of \$18.25 has been arranged through the co-operation of the British and Canadian Governments for the wives and children of those who were satisfactorily settled in Canada on June 6, of this year. Children under 17 years of age will be free. The Canadian Colonist railway fare to the destination is the only added charge. The arrangement has been made in order to implement a recommendation of the agriculture and colonization committee made on June 3 last.

In order to avoid himself of the reduced rates for his family the settler need only establish that he is successfully established in Canada and has a reasonable prospect of being able to support them.

## To Reduce Traffic Accidents

Saskatchewan Government Would Encourage Garages To Use Headlight-Testing Apparatus

Regina.—Following up the recent conference called to consider ways and means of reducing traffic accidents, the Saskatchewan Government is now encouraging garages and filling stations to equip with a testing device for headlights, to allow a driver to quickly ascertain if his lights conform with provincial law.

The Saskatchewan law is that the beam must not be thrown higher than 42 inches at a distance of 75 feet. If the equipment installed by the service stations were found to come up to government standard, the government would then consider the plan of allowing the proprietors to issue certificates to drivers.

Entertained Prince George, Cal.—Prince George, who is a lieutenant of H.M.S. Dauben now anchored at Santa Barbara, slipped into Hollywood by automobile and was the guest of Douglas Fairbanks and Mary Pickford.

Ex-Empress Dagmar III Copenhagen, Denmark.—The ex-empress Dagmar, the 81-year-old widow of Alexander III, of Russia, and sister of Alexandra, the late Queen Mother of England, is seriously ill here.

## NEW CABINET IN BRITISH COLUMBIA

Above are pictures of four members of the new cabinet in British Columbia. The varet 1, Premier S. F. Tolmie; 2, W. C. Shelly, minister of finance; 3, Joshua Hinchcliffe, minister of education; 4, R. H. Pooley, attorney-general.

## Ramsay MacDonald Sails

Says He Is Sorry To Leave Canada, But Will Return

Quebec.—"I have left my heart behind me, and am sorry that I did not raise the ship in order that I might see more of Canada," declared Right Hon. Ramsay MacDonald, former premier of Great Britain, as he mounted the gangway of the Empress of Australia en route for Southampton.

"I am going home full of most pleasant recollections of Canada. You have a wonderful country," he added, "and I hope to be back again next year. If it were left to me I would be back again next month."

"Just as soon as ever I get back to England, I will plunge right into the political fight. The annual meeting of the Labor Party at Birmingham takes place first, and then I shall go to the continent for two weeks, but after that I shall get right into the thick of it, and prepare for the general elections, which will take place next year. The results will be very good for us."

## Fire Destroys Famous Hotel

Manoir Richelieu At Murray Bay Is Smoldering Ruins

Murray Bay, Que.—All that now remains of the Manoir Richelieu, famous Canadian summer hotel here, is a smoldering waste of crumbling stone, charred rafters and twisted steel girders. Fire of undetermined origin destroyed the famous hotel which for years has been a mecca for tourists from other parts of Canada and the U.S.

According to officials of the Canada Steamship Lines, in Montreal, the loss, estimated at \$500,000, is fully covered by insurance. Plans had recently been drawn up for the erection of a new building to be operated in conjunction with the manoir but now it is stated these plans will be altered to include the construction of an entire new building, which will be erected probably on the site of the destroyed manoir.

## U.S. Building De Luxe Planes

Passengers Will Be Assured Of Every Convenience For Comfort

Los Angeles, Calif.—Four aeroplanes, capable of carrying 20 passengers, equipped with luxurious private apartments and sleeping berths, are being built by the Keystone Aircraft Corporation at Bristol, Penn. Edgar Scott, president of the firm has announced.

The new monoplane, the largest ever built in America, are of all metal design and tri-motored. They can speed at 155 miles per hour. Provision for hot and cold running water are made in the sleeping compartment and a radio will be installed.

## Plot Nipped In Bud

Numerous Arrests Made In Spain Following Discovery Of Plot Against Government

New York.—Reports from the Franco-Spanish border say numerous arrests have been made in Spain after the discovery of a plot against the government of Primo De Rivera, who is about to celebrate his fifth anniversary as dictator of Spain. A Hendaya, France, dispatch, says the arrests were reported to have been made in Madrid and other Spanish cities.

## Infantile Paralysis In Montreal

Montreal.—Four cases of infantile paralysis were reported at the city hall in the past week and Dr. Bouché, medical officer, has issued a warning to take precautions against an epidemic.

## EVACUATION OF RHINELAND TO BE CONSIDERED

Geneva.—There are indications that Foreign Minister Briand of France, was ready for serious conversations on evacuation of the Rhineland.

In order to remain in Geneva for a second meeting of the powers on the question M. Briand cancelled a trip he had intended to make to Paris to attend a cabinet meeting.

At the first meeting on the subject, M. Briand, Chancellor Mueller of Germany, Under Secretary Von Schubert of the German foreign office, Lord Cuthbert of Great Britain, V. Scialoja of Italy, M. Hymans of Belgium, and M. Lachi, of Japan, conferred.

Both M. Briand and Herr Mueller were smiling when they left the meeting. A communiqué issued later said:

"Conversations have commenced on the question of evacuation of the Rhineland, the discussion is still continuing and will be resumed on Thursday."

## Opportunities In Peace River

Lord Lovat Finds That British Settlers Are Doing Well In North Country

Edmonton, Alta.—"There are wonderful opportunities for British settlers in the Peace River country," declared Lord Lovat, chairman of the British Overseas Settlement committee, on his return to Edmonton following a week's tour in Canada's far-northern country.

"We met several of the British families who were settled at various points throughout the Peace district under the 3,000 family scheme, and without exception, all these people are doing well, and are more than satisfied with their venture."

"Many of these men were miners, and few of them had any previous farming experience," but they are making good, and their experience shows clearly that given the will to succeed, lack of experience is no bar to success."

Lord Lovat found that over 3,000 homesteaders and settlers have gone into the Peace district this year, and everywhere there prevails a spirit of optimism for the future.

## Chamberlain Is Improving

Health Of British Minister Of Foreign Affairs Is Much Better

Hamilton, Bermuda.—Sir Austen Chamberlain, British minister of foreign affairs, walked unaided, doctored the gangplank of the steamer Orcma here in a drizzle of rain. He and Lady Chamberlain and their children embarked on the launch of Col. E. B. Leigh, acting governor of Bermuda, and went for a few hours' stay at Clifton, the Leigh home at Prospect.

This is the first port in Sir Austen's long voyage at which he had disembarked. Observers contrasted his unaided steps down the gangplank with the fact that he was carried aboard the ship at Liverpool. Members of the party said that he was showing steady improvement in health.

## Gas Poisons German City

Sulphurous Fumes From Lignite Mines Creeds Panic In Halle

Halle, Germany.—This city had a taste of what it might expect in future wartime when aviators attack cities with gas.

A cloud of sulphurous gas was blown over the city from nearby lignite mines poisoning hundreds of residents, including many children. Many were made so ill they had to be treated by doctors.

The whole population was thrown into panic. It was necessary to close the schools.

France To Honor Tunney

Paris.—Convinced that Gene Tunney learned all about boxing in France, French sportsmen are affixing a plaque to a gymnasium at 26 rue Faidherbe where Gene Tunney, a Marine, in 1918, took some boxing lessons.

#### CHAPTER I.—Continued.

"Good-bye old pal," Donald whispered, his arms about the collie's shaggy neck. The dog turned slow and unwillingly toward the house. In the meantime, within the house, John McLean and his wife were discussing the possible result of the father's seeming severity.

"Donald is a great trial to us now, John," said the mother, "but we must not forget the happiness he has brought us in the past." She gazed long and lovingly at a photograph of her son as a child; then, with head bowed, her lips moved in silent prayer.

Upon his arrival at the wharf Donald found his baggage destroyed, the pass he had been in the habit of using, as his father was owner of the steamboat line, and bought a ticket to Bangor.

Reaching Bangor, he chose less expensive quarters than was his custom, locating at the Penobscot, on Exchange Street. In no mood for sleep, he decided to take a stroll. Outside an all-night restaurant, was a long string of cars, and from within came the sound of happy laughter.

A feeling of loneliness, coupled with a slight hunger induced him to enter. A big man sitting at the counter, attacking vigorously a T-bone steak, was the centre of interest, as evidenced by the cluster of taxi-drivers and other night-lunchers about him. He wore a wide-brimmed hat, high leather boots, corduroy trousers, a blue flannel shirt, and a red-mackinaw coat hung on the wall behind him. Blond, sun-washed hair stood up from his head aggressively, and his steely blue eyes were set in a face tanned a brick red.

"Yes, sir," spoke the blond giant between mouthfuls, "he's a he-man's country, she's, is, none of your business that I used to sit here in these Eastern loggin' camps, now-belly and befits three times a day, and work in for forty dollars a month from daylight until dark. No, sire! Me for the Coast with its four bucks a day. And talk about grub! Say, there ain't any hotel that puts up better scottins than we git in the loggin' camps in good old B.C."

He looked around at his audience and, convinced that they were interested, he continued, "Yes, sir! British Columbia for mine. Say! What'd you

He looked around at his audience and, convinced that they were interested, he continued, "Yes, sir! British Columbia for mine. Say! What'd you

"Better come up to my room and have those cuts attended to," suggested Donald.

The Westerner touched gingerly the rapidly swelling lump over his ear. "You know," he observed, "those fellows never intended to start a rough-house. The little slip was pretty slick, but I caught him with his hand in my pocket, and when they saw that they had a fight in their hands, they tried to lay me out with a 'billy.' Should have seen the funny look on that little slip's face when he jammed me with that loaded stick and I didn't go down. Guess this old bean of mine must run pretty heavy to bone," he finished with a chuckle.

He looked at Donald curiously. "You sure handed it to that big dago clerk. How did you horn in on the row anyhow?"

Donald told of being in the lunch-room when he had displayed his money, and of the waiter's subsequent remarks.

"Fright" smothered the big man disgustedly, "guess I need a guard-dog."

With the assistance of the obliging night-clerk, who furnished antiseptic and court plaster, they patched the burts of the much-bruised Westerner.

When the clerk left the room the big man turned to Donald. "My name's Jack Gillis. What's yours?"

"Donald McLean."

"Jammy good name," he averred, looking Donald over critically.

"I bin visitin' my old home in Nova Scotia," he ran on. "Come down here to visit my sister. I'm gittin' homesick for the Pacific Slope, and I'm goin' to hit for B.C. tomorrow mornin'."

"I'm on my way to Vancouver," said Donald.

The effect of this statement on Gillis was electric. "Do you belong in B.C.?" he questioned excitedly.

Donald told him how his glowing description of that land of promise had induced him to go West, and that this would be his first visit to the Coast.

"Well," observed Gillis, "I've been the means of addin' a man like you to the population of B.C., then Jack Gillis has done some good."

"That's a real compliment," smiled Donald.

"I'm goin' on the mornin' train," remarked Gillis. "I'd like to have you travel with me."

Donald nodded.

(To Be Continued.)

**Rub It In For Lame Back.**—A brisk rubbing with Dr. Thomas' Electric Oil will relieve lame back. The skin will immediately absorb the oil and it will penetrate the tissues and bring speedy relief. Try it and be convinced. As the liniment sinks in, the pain comes out, and there are ample grounds for saying that it is an excellent article.

Alpha—"What was the denomination of that bill you loaned me?"

Theta—"Episcopalian, I guess; it keeps lent."

Horses have no eyebrows, and fishes no eyelids.

There is nothing that has ever taken Aspirin's place as an antidote for pain. It is safe, or physicians wouldn't use it, and endorse its use by others. Sure, or several million users would have turned to something else. But get the real Aspirin (at any drugstore) with Bayer on the box, and the word genuine printed in red.

### Teeth and Health

Issued By The Canadian Dental Hygiene Council, and Published By The Saskatchewan Dental Society

#### THE WISDOM TOOTH

Otherwise the third molar, the word "Wisdom" being of no real significance excepting as it relates to the period of eruption which is at the approach of adult age.

Perhaps it has been your good fortune not to have had this tooth erupt, for in truth, it is often a trouble bearer; it is the dental "degenerative"—generally stunted in size, but frequently absent altogether—but why missing?

This—the gradual lessening of the function of mastication and the reduction of the force of jaw movement, due to the substitution of softer and less gritty foods by civilized man, has led to a marked degeneracy of the dental mechanism.

So that, through economy of growth, due to disease, the tooth germ may fail to develop; or, developing, the jaws are so greatly contracted (through disease), that frequently there is lack of space for it to erupt into position—a condition analogous to that of the cyclops' foot of the Mammoth Cave—Nature cutting off that which goes unused.

Just a word more: Occasionally the unnatural retention of this tooth in the jaw—so-called "impaction," leads to serious disturbances, neuritis, pains, local infection, or constitutional ill. So when your physician, finding no specific cause for your general ill health, orders that "impacted" wisdom removed, you will better understand the reason.

But don't worry should the wisdom teeth not erupt—the chances are that you have been spared trouble.

#### Chief Buffalo Child Long Lance

Talented Western Canadian Is Author Of New Book, Called

"Long Lance"

A man of magnificent appearance came to the office of Cosmopolitan Book Corporation last year and asked questions on the technique of writing a book. He was not seen around the Cosmopolitan offices again for about a year. Then he returned with a complete manuscript, left it silently, and was gone again.

The next day the manuscript was circulating around the office, page by page, and being avidly read by half a dozen people at once.

The author was Buffalo Child Long Lance, a chief of the Blood Band of Blackfoot Indians. He had written how as a boy he suffered the tortures of training as a warrior and was educated in the teachings of medicine men and wrinkled old braves. He had told the stories of a babyhood on horseback, of buffalo-hunting, bloody fighting, awesome "medicine," of capturing wild horses, of war and peace, sun dances and happy feasts.

Now a college graduate and an appointee by President Wilson to West Point; a hero of the World War, and a most charming personality, Chief Long Lance turned up as a literary man of a high order.

The book was a rare contribution to Americana. The publishers prevailed on him to let the book be called "Long Lance."

Chief Buffalo Child Long Lance is a most extraordinary personality. More than thirty years ago he was born an ordinary Indian baby on the western plains in what is now Alberta. To tell of his boyhood before the Blackfoot Indians signed a treaty and went to the reservation would take the edge off his amazing book.

Little Helps For This Week

"The Lord thy God, He it is that doth go with thee; He will not fail thee, nor forsake thee."—Deut. xxxi. 6.

Yet if we will one Guide obey. The dreariest path, the darkest Shall issue out in heavenly day; And we, on divers shores now cast, Shall meet, our perilous voyage All in our Father's house at last.

—Richard Chenevix Trench.

So long as our existence lasts, we must not give up the duty of cheering and hope. He who has guided us through the day, will guide us through the night also. The pillar of darkness often turns into a pillar of fire. Have patience and perseverance; believe that there is still a future before us, and we shall at last reach the haven where we would be.

—Arthur Penrhyn Stanley.

Athletes—Keep Minard's Liniment handy.

The tender leaves of the tea plant are extremely sensitive to climatic changes. That's why Red Rose Tea is packed only in aluminum—so it will never lose strength or flavor through contact with dampness. Every package guaranteed to be in perfect condition. 67

First Separator Came in 1882

The first centrifugal cream separator was imported into Canada from Denmark in 1882.

Hard and soft corns both yield to

Holloway's Corn Remover, which is entirely safe to use, and certain and satisfactory in its action.

Many a man of few words keeps them working overtime.

### Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner does than baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot put away. And it's always ready for the cruelest pangs of colic, or constipation, or diarrhoea; effective, too, for older children. Twenty-five million bottles were bought last year.

Fletcher's CASTORIA

### "A GREAT TONIC," SAYS MRS. RUSSELL

After Taking Lydia E. Pinkham's Vegetable Compound

Fenwick, Ont.—"I am taking Lydia E. Pinkham's Vegetable Compound because of Life for nervous feelings, loss of appetite and to gain strength. It is a great tonic and I have taken a dozen bottles of it. It was recommended to me by a friend and now I recommend it to all women for such troubles as

## Canada's Biggest Crop.

For the first time in history Canada this year raised over 500,000,000 bu. of wheat. The only thing that will keep us from making this a billion bushels will be the possible lack of demand. But if we can produce wheat more cheaply than any other wheat-growing country we need not fear on that point. Canada's prairies are surely the granary of the world.—Lethbridge Herald.

## An Editor's Wonderful Agility

Editor Morrison in Hay Lake Times—The other evening as we were crossing the street a big car whisked around the corner and nearly ran us down. Had it not been for our wonderful agility in times of danger to our person, there would have been no Times for you this week, dear reader.

We admit that we did not see the speedometer, but if that car wasn't going over twenty per we're here to eat our editorial. While the Editor may be the least valuable of the villagers, it is our own personal opinion that he is too valuable to be submitted to the danger of being ignominiously run down by a careless motorist.

## Stony Plain and District.

The stores are open all day on Wednesday.

Mr. P. S. Washburn is recovering, this week, in an Edmonton hospital from the effects of a minor operation.

Mr. Gus Werner left yesterday for Bruderheim, to work in the Mundt elevator.

Threshers are reminded that they must procure a certificate of registration to operate their machines. These may be obtained from the Dept. of Agriculture.

## United Church Notes.

Another splendid service was held in the United church on Sunday evening last. The subject of the sermon was "Sweetening the Bitter Wastes of Life." Exodus 15:23-25.

On Friday of this week a social is to be held at the home of Mrs. James Malloch. This will be participated in both afternoon and evening, when a fine program is being given by home talent. A silver collection will be taken.

The regular service will be held next Sunday evening. There will be special singing. Come, and bring your friends.

On Sunday evening, Oct. 14th, Prof. A. E. Ottewill, of the University of Alberta, will be the speaker.

## And Now for the Mallards

The duck shooting season opened on Saturday morning last with a bang, a large number of hunters being out in the fields at dawn, to take advantage of the early flights to the feeding grounds.

Quite a number of birds were bagged, the high wind making it easy for the shooters, as ducks dislike flying in a heavy breeze. Residents of the City were out in flocks, and these were noticeable, some with their accoutrements fresh from the sporting goods shops, and these succeeded in getting some of the feathered beauties.

## Spruce Grove News

The number of the small threshing outfits has increased to such an extent, in this district of late years, that two oldtime threshing outfits pulled home after short runs last week, owing to lack of jobs.

Mr. Elmer Anderson has taken over the construction work of the new barn on the Ph. Schram farm.

Messrs. Ed Steffler and N. Schnermund hauled home on Saturday a new McCormick Deering threshing outfit.

Mr. E. C. McLaughlin has purchased a new separator for his threshing outfit.

## His Car Followed a Man Into the Barber Shop.

St. Louis Post-Dispatch—While waiting for a haircut in the barber shop North Broadway, Joseph Crawford was hit by his own auto which he had parked around the corner. With two other machines, Crawford's car started down hill when the brakes became dislodged. It turned the corner and crashed into the barber shop. Crawford was cut and bruised.

## Wolf and Coyote Bounties.

Following are the bounties to be paid on wolves killed in the province:

\$20 will be paid for female timber wolves, while male timber wolf pelts will command \$10.

Adult prairie wolves taken between April 30 and Sept. 1 will be paid for at \$2 a pelt.

Each wolf pup taken before July 1 will command \$2.

While prairie wolf and wolf pup pelts upon payment of the bounty become the property of the Provincial Government, timber wolf pelts upon which bounty is paid are to be sold thru the Government's fur market service and the proceeds less the selling commission, will be paid to the person receiving the bounty.
